

Community Open House

March 7, 2012

TORONTO TRANSIT COMMISSION

Coxwell Station Easier Access Project

The TTC is committed to making its transit facilities accessible. Through the “Easier Access” program, TTC will make the remaining 40 subway/RT stations accessible to all transit riders.

This project will provide significant benefits for the community at Coxwell Station:

- **New elevators providing easier access to subway platforms and the concourse level**
- **Accessible fare gates and automatic sliding doors to accommodate strollers and wheelchairs**
- **Re-paved bus loop**

Displays will be set up throughout the evening and TTC staff will be available to explain the work in detail and to answer your questions. We are interested in hearing your comments on ways to help reduce construction impacts in the community. Construction is scheduled to begin in early 2013.

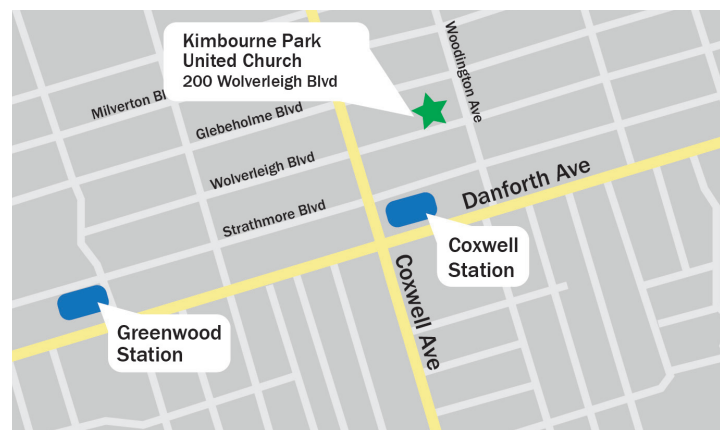

Please note there is limited parking in the vicinity. Attendees are encouraged to take public transit to the venue if possible.

Event Details:

Date: March 7, 2012

Time: 6:30 pm to 8:30 pm

Location: Kimbourne Park United Church
200 Wolverleigh Blvd
