

What's In Season

Your weekly guide to what's fresh in veggies, fruits, and Danforth East!

Welcome to the first week of the East Lynn Park Farmers' Market!

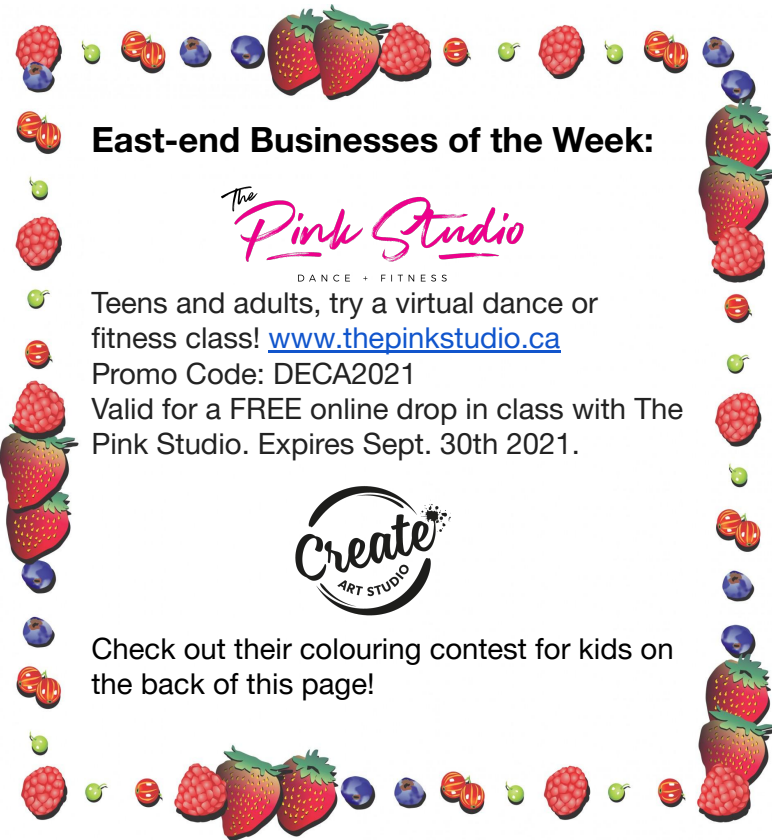

While our society has been forever changed by this pandemic, our farmers' market continues to be a place for community gathering and provides an opportunity to root in what makes us most human. Our connection to and reliance on the land is something the Indigenous peoples of Turtle Island (North America) have known for millenia. As we work to understand our place on this land and in this world, the market is a great place to engage in conversations with neighbours about the world we want to create as we emerge from the pandemic. To share our struggles, stories, ideas, projects and dreams.

Although masking up and being distanced may create a new and different barrier to connection, we are grateful you have come out to support our farmers' market and engage in community gathering in a safe & respectful ways.

love,

DECA

Our land acknowledgement:

East Lynn Park is on the treaty lands and territories of Mississaugas of the Credit, the Anishinaabe and the Haudenosaunee. By acknowledging the land we stand on, we are reminding ourselves of our human connection and responsibility to care for the land and its people. We reflect on the history of colonialism and its impact in our community and firmly commit ourselves to listen, learn and speak the truth on a path to reconciliation.

Action for the week:

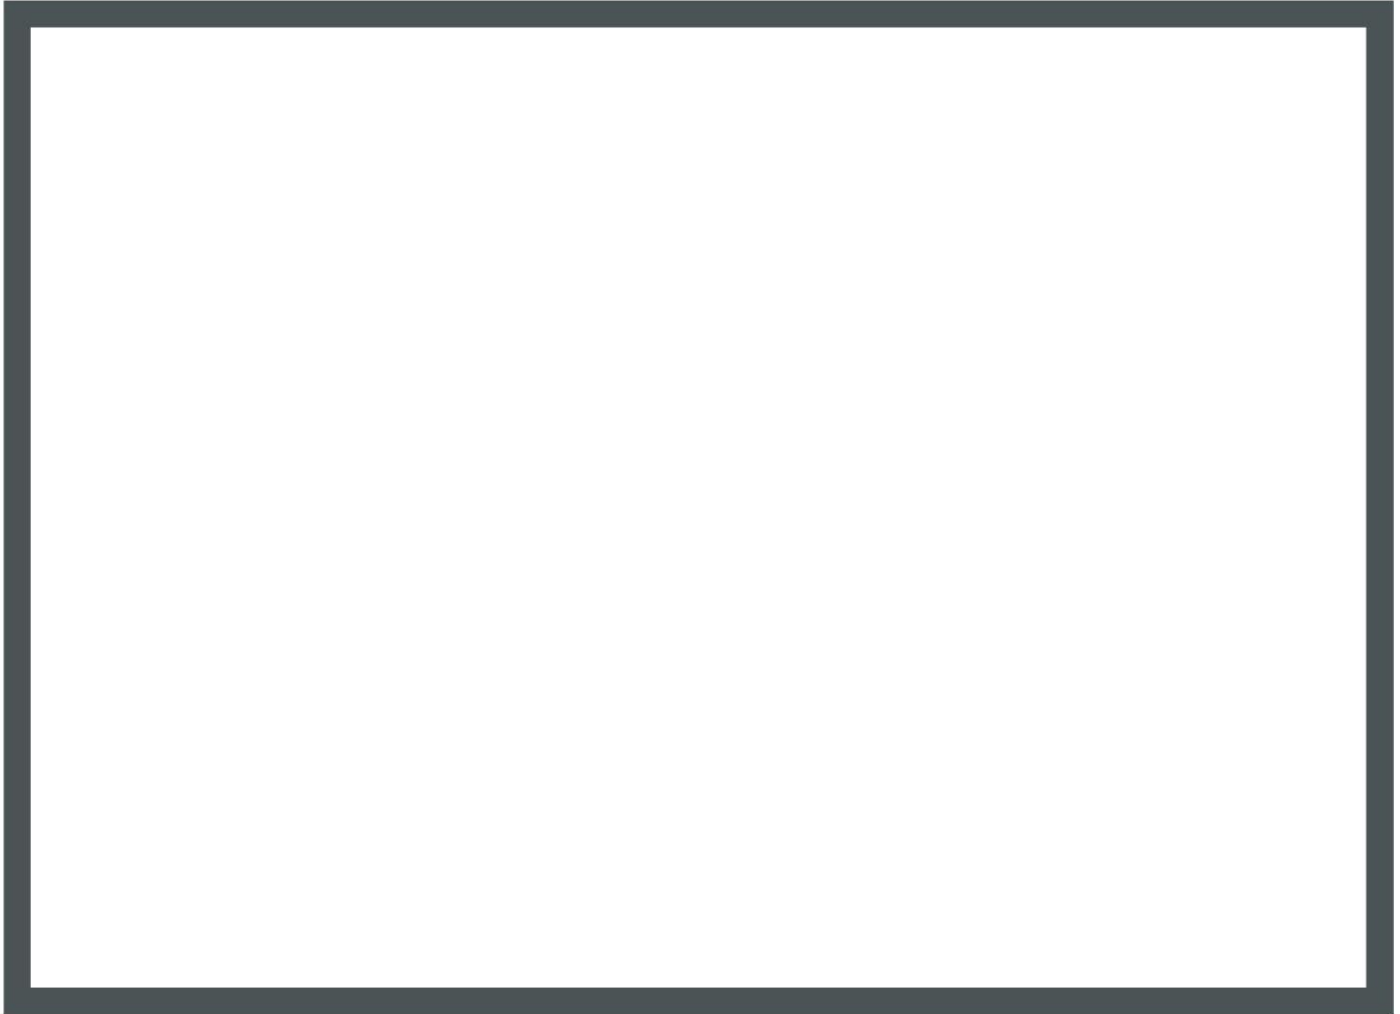

Look at the website <https://www.whose.land/en/> to view territories and hear beautiful land acknowledgements from around the country.
