Urban Vegetable Gardening: Growing Veggies from Seed

Want to enjoy vegetables you've grown yourself in your own backyard or on your balcony in a container garden? No space is too small to grow vegetables sustainably! A Toronto Master Gardener will lead a demonstration on growing vegetables from seed. To help support the environmental protection and conservation efforts of Torontonians, a limited number of vegetable seeds will be provided to participants to get their gardens started!

Toronto Public Library is committed to accessibility. Please call or email us if you are Deaf or have a disability and would like to request an accommodation to participate in this program. Please let us know as far in advance as possible and we will do our best to meet your request. At least three weeks' notice is preferred. Phone (416) 393-7099 or email accessibleservices@tpl.ca.

Register in branch or by calling 416-396-3975.
